

A Gold Prospecting Mindmap to Help you to Find Everything About Gold Prospecting in West Australia

A Gold Prospecting Mindmap to Help you to Find Everything About Gold Prospecting in West Australia

Instructions

The links to Tengraph Easy Graphical Training are on the website at the link below or would have been included on this CD that you have purchased which included this Mindmap.

[Download Your Free, Graphical "How To Use Tengraph to Find Gold Prospecting Targets" EBook Here](#)

and dont forget that there are some videos on the website about [How to Apply for Section 40E Permit Video](#) to help you go through the process of applying for a Section 40E permit to prospect on already granted Exploration Leases that you would not normally be allowed to go on unless you had permission.

- On the right hand side of the Gold Prospecting Flowchart are links that if you left click will lead you to further information on the specific subject.
- Some links will open in a page on the www.gold-prospecting-wa.com website whereas others will open in a new page directly on the Department of Mines website.
- Please tell us if the links are not working or you would like to see the information presented in a different way.

Remember - the key is doing your research and understanding the basic rules and then getting out there to find a few nuggets.

There is still plenty of gold left out there for you!
